### COURT PASSES ON HOMESTEAD

In the suit of W. B. Sollender vs. William Royston, Judge Averill ruled yesterday sustaining a demurrer on the ground that the wife of the plaintiff should have been made a party. Ten days were allowed for amendment.

The purpose of the suit was to set aside a deed given by Flora Cooper Sollender, wife of plaintiff, to the defendant of certain property in Tonopah which the plaintiff alleges is homestead property, and which he contends cannot be alienated without his consent. Reviewing the case the court said:

"Under the present law of Nevada, there are two methods of creating homesteads, one by declaration, as provided by Section 1142, and the other by occupancy, the actual occupancy of the property as a home for the family."

The complaint declares that the property in controversy was actually occupied as a home by the husband, wife and children.

Referring again to section 2168, which was enacted in 1897, and giving it that broad application it should have when construed in connection with the constitutional provision, we find that it recognizes two kinds of homesteads, whether a declaration thereof has been filed or not, then construing it with Section 2142, which was enacted in 1879, we reach the conclusion that the separate property of either spouse may become homestead property if actually used as a family home, and that when it does, it becomes inalienable by either spouse until the death of one of them, when it becomes separate property again. In the meantime under the constitutional provision and the probable intent of the legislature, no deed of such property is valid unless executed by both spouses.

"The demurrer is sustained on the ground that the wife should be made a party; in other respects it is overruled."

to the house. BYRON the report of the daylight saving act would be a great misadventure to the country and a serious economic loss. The act has resulted in great economic trouble in Tokyo and a substantial economy in energy. He states the fact of the sundry civil service bill was brought to the attention of the committee on the whole purpose of the daylight saving bill and render its administration practically impossible. He says the sundry civil service appropriation of \$2,000,000 for all the expense of rehabilitation including support for disabled men in training was insufficient.

The sundry civil appropriation bill was in line of the appropriation in a bill approved amending the act of June 27, 1918. The sundry civil appropriation was not enough to care for those men in training, eliminating consideration of another thousand covering the benefits of the rehabilitation act. Such limits were placed on the salaries of men engaged in rehabilitation work that the most valuable men would be lost.

NEW YORK, July 12.—A report on the alleged Japanese atrocities in Korea was made public today at the headquarters of the Presbyterian Church of America here. This is the result of investigations by the church representatives in Korea following the imprisonment of some missionaries by Japanese authorities. One hundred Koreans professing Christianity are said to have been driven by Japanese gendarmes, at the point of the bayonet, into churches and then fired on through the open windows. The Koreans have perished when the churches were fired. Most of these victims were men. The surviving women and children were left destitute. The men often were beaten to death and the women subjected to shameful treatment. The Japanese police destroyed all women favoring Korean independence as social outcasts.

H. H. Underwood, a missionary living in Seoul, is quoted as paying a visit to Paldan, a market town, where he found the Japanese recently had burned 36 of 38 houses in Chayamni, two miles from Paldan because the inhabitants were Christians. Paldan escaped fire and sword because no Christians were there. The mildest punishment for Koreans suspected of complicity in the revolutionary movement is 90

blows on the body with a bamboo rod and the administering of boot kicks. Respectable Korean women are not safe in their homes in day time so they spend most of their time in the hills returning to their homes at night. The arm of one Christian woman was wrenched from the socket.

The report quotes the Japanese paper "Shimban" as blaming American missionaries for the uprising. The paper says the missionaries "make the minds of Koreans a bed in which to plant the seeds of Democracy."

The report publishes violent anti-American attacks of certain Japanese papers and says as the press is censored, the government is morally responsible for such attacks. The truth is prohibited while falsehood and libel are allowed. Such course of action endangers the relations of the governments concerned.

Through the mail and cable dispatches many occurrences outlined in the Presbyterian report on the alleged Japanese atrocities in Korea have been made known to the American public. The Japanese government has recognized that excesses have occurred in Korea. Premier Hara said the reports in the foreign press were partly true. He said the officers and men responsible had been punished and steps taken to prevent a repetition.

### BROUGHER CUTS 2 FEET \$40 ORE

Although no official information has been given out it is admitted that the Brougier Divide has opened a body of commercial ore on the top level that carries with it the assumption that the same ledge may be found in the Victory Divide. The place where the ore was found is 100 feet northwest of the Brougier shaft. Later reports state that the ledge had widened out to six feet followed by a corresponding decrease in values although still maintaining a good commercial rating.

### OAKLAND MEN ON THE DIVIDE

Three leading business men of Oakland have arrived during the past two days with the object of opening a property which carries every indication of making good especially since it was recommended by R. M. Henningsen, the well known builder and construction engineer, who was identified with some of the most important interests of Goldfield during the boom of 1906. The parties interested are J. C. Downey and W. C. Harrington. The latter is a member of the printing firm of Harrington-McInnis company which is one of the largest printing houses in Oakland.

The property acquired by these and associated capital is held by the Cornucopia Divide Mining company and comprises 90 acres situated south of the Silver Bow road. The group was bought from McFarlane Erickson and Nelson. Mr. Henningsen secured the option when he was here about a month ago and prospected thoroughly before sinking the shaft. Officers of the company are located in the Bank of Italy building, Oakland. The officers are: R. M. Henningsen, president; C. E. Butler, vice-president; William Berceovich, treasurer; H. R. Cooke, fiscal agent.

Woman suffrage is no new thing. It was established by Moses centuries before the Christian era and we remember one of the suffragettes of years ago who must have been in the first parade through Egypt.

### OIL FEVER OVER IN WHITE PINE

Not satisfied with taking options on the major portion of Fish Lake Valley, local capitalists have gone over into White Pine county and filed locations on thousands of acres which are said to have the earmarks of the genuine oil bearing land. The locators were represented by Al Thackery and Jack Kelly, who brought back samples of shale which carry every evidence of an oil base. The locations are forty miles east of Ely and six miles from Hamilton.

### DETAINED FOR EXAMINATION

Frank Stevenson, aged 22, was placed under restraint yesterday and detained at the county jail until such time as the court may determine his responsibility. Stevenson came here originally from Manhattan where his father, Harry Stevenson, formerly resided. The latter moved away to San Diego and the young man also left this section. Returning the other day his eccentricities became so pronounced that he was placed in the county hospital. He refused to remain there and began wandering around town with a mania for taking possession of strange beds. The last place he visited was the Nevada rooming house on Corona avenue where he stowed himself away between clean sheets until he was discovered and the police notified. He is crazy on religious subjects and believes himself sent on earth to train ministers of the gospel. The youth has two married sisters whose addresses are not known.

### CROSS COUNTRY FLIGHT ENDS AT WASHINGTON

(By Associated Press)  
WASHINGTON, July 12.—The New army dirigible A-4, after completing its flight from Akron, Ohio, circled Washington and landed at Bolling Field. The craft left Akron at 10 o'clock last night with a crew of three men. After replenishing fuel the ship will leave for Hampton, Va.

### BANDITS RAID SINALOA TOWN

(By Associated Press)  
NOGALES, Ariz., July 12.—Mexican bandits raided Villa Union, Sinaloa, Thursday, killing General Juan Carrasco, the federal commander, according to telegraphic advices received here. The bandits carried off eleven Mexican girls, looted stores and committed other depredations.

More than 100 were in the bandit band which was well armed and plentifully supplied with ammunition. First is the bandit outbreak in Sinaloa this year. Federal troops are pursuing the bandits.

### FOOD HOARDERS HOLD THE SACK

(By Associated Press)  
BERLIN, July 12.—In view of the impending raising of the blockade, government action in reducing the prices of food staples is forcing food traffickers to get rid of hidden supplies. A sharp decline in prices as a result is reported from all sections of Germany.

### WATER FOUND IN THE GOLD REEF

Water was struck on the Gold Reef this morning at a depth of 130 feet and the company has the distinction of being the only one on the divide that has to use a bailer in keeping its workings free. This is the same company that owns the only other shaft in the district with a flow of water. The beauty of the latest strike is that it is taken as the forerunner of the sulphide formation. Ten feet above where the water was tapped three feet of ledge formation was encountered. This is the same as what the Tonopah divide penetrated before that company got into its first orebody.

### TWO OLD FAMILIES UNITED BY MARRIAGE

The marriage of George Dugan and Gertrude H. Edwards, which took place Thursday in Goldfield, united two of the oldest families in Tonopah. The bride is the daughter of the late Mr. and Mrs. T. E. Edwards, half-sister to Mrs. T. J. Lynch and E. J. Roberts, a sister, Mrs. Mercy E. Church being a resident of Oakland, Calif.

An aunt, Mrs. Duncan A. MacDonald, formerly a resident of Tonopah, is visiting here at present.

George Dugan has grown up here and is too well known to need special mention. The young couple gave their friends the slip by stealing off to Goldfield with witnesses and going on to Hot Creek after the ceremony where they will make their home.

The ceremony took place at noon. Father O'Sullivan officiated. Gerald Logan and Miss Helen Dugan, brothers and sister of the groom and Horton McKim and Tommy Lynch witnessing. The bridal couple returned to the Golden Eagle where dinner was served after which they left for Hot Creek which will be their future home.

### IRISH LEADER WELCOMED BY CHICAGO CROWD

(By Associated Press)  
CHICAGO, July 12.—Eamonn De Valera, president of the Irish republic, arrived in Chicago today accompanied by former Governor Edward F. Dunne and Frank P. Walsh who were sent abroad by Irish organizations to obtain recognition of Ireland at the Paris conference. A large crowd welcomed De Valera who will remain three days before going to San Francisco.

### RE-SALE PRICES MAY BE FIXED

(By Associated Press)  
WASHINGTON, July 12.—A renewed recommendation that manufacturers be permitted by law to fix and maintain resale prices subject to review by a disinterested agency is made by the federal trade commission in a special report to congress. Laws which have been interpreted by the supreme court in the case against the Colgate company and other tests in prevent the fixing of resale prices should be amended, the commission believes, to remove the present complexity of the business world, to promote efficiency of manufacturing and commercial institutions and to serve interests of the consuming public.

### LONDON HOTEL KITCHENS IN FILTHY CONDITION

(Correspondence Associated Press)  
LONDON, June 19.—The kitchens of London's hotels and restaurants are in many cases filthy places, according to Joseph A. Caryl, secretary of the hotel, club and restaurant section of the British Workers' Union. He says that in his twenty-five years' experience, he has never seen a sanitary inspector in a hotel kitchen. "Waiters often carry teaspoons about in their pockets, never washing them properly, but just wiping them and putting them back again," he asserts.

### HELD TO THE DISTRICT COURT ON CHARGE OF SWINDLING

(By Associated Press)
